**Abstract**

This research deals with the US policy towards Poland from( 1969 – 1974). The aim of the study is to clarify the reasons and goals that make the US government to adapt this international policy that showed in reinforcing the American power in Poland through extending the political and economic relations between the two countries, and making use of this improvement of this relations to develop cooperation between them in solving the international problems peacefully, especially ending the war in Vietnam, and also long term goals to do essential changes in the political circumstances in Poland at that time to destroy the Soviet influence in Eastern Europe that causes the destruction of the Soviet Union, which is the main goal of the US external policy.
